

Tire Shine Plus

Shine Tires, Clean Wheels & More

#CCPGCG004 32 Ounce Trigger Spray

CROFTGATEUSA's TIRE SHINE Plus has a blend of emollients, cleaning and gloss agents to leave your wheels, tires clean and more, with a long lasting, satin smooth finish. **Non greasy formula!** **TIRE SHINE Plus** is also used on plastics to rejuvenate them, bringing back their color density. Use it on your dash area to clean and leave a nice finish. All CroftgateUSA products are formulated to producing quality products with the lowest environmental impact.

- One product to clean/shine wheels, tires and more
- No listed hazardous materials to touch or breathe
- Low environmental impact, does not have petroleum solvents
- If accidentally sprayed onto vehicles paint, wipes right off
- Will not sling nor attract dirt like the older technology products

Recommendations for Use

Needed: 2 clean microfiber towels each folded two times.

Wheels & Tires

1. Adjust trigger spray nozzle and apply an even coating onto tire.
2. Spray onto wheel rims (wheel) ensuring all areas are coated.
3. Take your microfiber towel and wipe rims (wheel) clean.
4. Fold dirty microfiber towel once or twice and wipe around tire, leaving a deep long lasting shine.
Continue 1 -4 until all rims and tires are clean and shined.

Dash Area

1. Spray one or two mists onto a clean micro fiber towel (folded two times)
2. Rub the towel material against itself so the Tire Shine Plus works into the towel
3. Now wipe your dash area until clean and a dull matte shine appears.
- 4 Repeat Steps 1-3 until all areas are done

Plastics

1. Mist onto micro fiber towel and onto plastic area to be cleaned and treated.
2. Wipe in ensuring all areas are covered.

No Petroleum Solvents - No Listed Hazardous Materials – No VOCs'
