WRAP CARE SURFACE PREP JP

For Professionals - A Pre-Wrap Surface Treatment • CCPCG050R

- Ensures a clean surface, ideal for the application of vinyl wrap material.
- An important part of Wrapping a vehicle how you prep the surface!

Surface Prep is part of a total Wrap Care system and does more than just clean and prep a surface!

- Lifts and removes dust, road grime, oils, grease and more.
- Almost acts like a surface primer allowing a better spread and strong bond of vinyl adhesion to surface
- Treats and prepares all hard surfaces.
- Helps ensure fewer customer issue like bubbles or loose adhesion
- Use as a Surface Prep, even on very dirty surfaces.
- No or Low odor - Easy to use wipe and off.

**Not Flammable/Zero Voc/
No Petroleum Solvents/No Listed Hazardous Materials**

Does not contain any alcohol or other materials that are easily inhaled, filling your work areas with strong or dangerous odors.

Directions for use:

- Part of our system is to use a folded microfiber towel.
1. Spray onto a clean folded microfiber towel to presoak towel (1 time only)
 2. Spray onto an area and wipe with the pre-soaked micro fiber towel.
- Use second dry micro fiber towel to buff dry.
(Repeat steps 1 and 3 until all sections are treated and clean)
